

Auto Pay Station

Parking
Management

As a self-service device, automatic pay machine provides more service points without additional labor cost. The ability to deal with bills and coins, optimally integrate with online pay, bank cards and customer loyalty system, gives customers more options to pay their parking fee. The video-play area on the big screen can be used for notice, general information, advertising or others, which enables more potentials for park owners to improve their service or diversify their business operating.
